ATLANTA, GA., NOV. 4, 1933.

BACKING THE NRA.

Strong testimony as to the benefits that have accrued to business in Atlanta under the NRA is contained in a compendium of expressions by Atlanta retail merchants appearing in the news columns of this issue of The Constitution.

They believe that the recovery program is improving conditions as rapidly as could be reasonably expected, and urge that it be given 100 per cent co-operation by everybody.

These business leaders of Atlanta point out that the downward trend has been definitely stopped; that in addition there has been a marked improvement in sales and stability. The head of one of Atlanta's largest and oldest retail houses reports the opening during the past two and a half months of more new accounts than during any similar period in its history; another expresses the unqualified belief that the NRA has been a real boon to business.

These merchants express confidence that the worst is definitely over and that universal support of the recovery program is all that is necessary for it to perform to the fullest the task for which it was created.

Unquestionably the general business situation is better than it was last spring.

It was not expected when the NRA was evolved that it would perform the miraculous and effect a complete cure of the country's economic ills without reasonable time for the necessarily far-reaching readjustments.

But the figures of increased wholesale and retail trade, the drop in unemployment and the increased confidence of both sellers and buyers are ample evidence that the NRA has justified its existence.

All that is necessary now is patience and co-operation. Rome was not built in a day, and neither can a patient so sick as was the business of the United States recoup overnight.

The outstanding and comforting fact of the situation now is that conditions are certainly better and that the improvement is continuing. With that true, this is no time for knocking. It is, rather, a time for co-operation for every man to put his shoulder to the wheel and do his part towards hastening the successful progress of the NRA.

United effort will put it over, while grumbling and kicking will only retard the day when the business of the nation returns to a soundly prosperous level.

Atlanta merchants, in their interviews published today, set an inspiring example of confidence and determination.

END THE DISCRIMINATION.

In a recent editorial The Constitution pointed out the injustice of the processing tax on cotton, and cited, in addition, the insurmountable barrier faced by the south's chief product in the lack of a compensating tax on fibers in direct competition with cotton.

A copy of the editorial, sent to the agricultural administration in Washington by A. P. Brantley, of Blackshear, prominent south Georgia businessman, was referred to D. S. Murph, chief of the cotton processing and marketing division, and his reply, sent to The Constitution by Mr. Brantley, gives direct expression of the government's attitude.

Mr. Murph defends the processing tax as not being detrimental to the farmer, but, in discussing the other phase of The Constitution's editorial, makes the significant and gratifying statement that—

"The agricultural adjustment administration has been giving considerable attention to the question of the imposition of compensating taxes on commodities alleged to be in competition with cotton, and, under the provisions of section 15 (d) of the agricultural adjustment act, several hearings have already been held on this subject, and others are in contemplation. In the meantime, groups of persons qualified by education, training and experience for such work, have been studying these various commodities and the alleged shifts in consumption from cotton thereto, and you may be assured that equitable distribution of the many problems involved will be made as quickly as possible, and appropriate action will be taken in each instance."

The taxation of one material without a compensating tax being levied against competing materials is fundamentally unfair and Mr. Murph's statement seems to be a direct assurance that steps to end the discrimination are now under way.

It is unjust to the cotton interests of the south that they be called on to bear the burden of the processing tax, while all sorts of competing fibers—hemp, sisal and a half dozen or more others—are allowed to go scot-free.

The result is that the cotton manufacturers have to compete with similar products made of fibers carrying no processing tax. They have thus been forced to curtail operations and decrease their purchases of raw cotton.

The statement of Mr. Murph is encouraging.

In justice to the cotton producer and manufacturer, every possible effort should be exerted to speed the investigations being made by the agricultural administration.

BEER AND DRUNKENNESS.

The unsupported charges of extreme dry leaders that the sale of 3.2 beer has led to an increase in drunkenness are strongly denied in a statement issued by C. D. Williams, secretary of the United States Brewers' Association, who cites the Rockefeller report to establish their inaccuracy.

Holding that the increase in arrests in some cities is due to the "greater ease in obtaining hard liquor cheaper, which is the last gasp of the illicit liquor industry before repeal," Mr. Williams makes the following comment:

"The Rockefeller report for the entire country denies that beer could cause any increase in drunkenness. It says specifically: 'It (3.2 beer) has been drunk in enormous quantities. Yet the testimony is almost unanimous that there has been no increase in drunkenness, no disorder, no increased resort to illicit hard liquor. The evidence, as we have found it, is all the other way. Bootleggers have lost part of their patronage, in some places arrests for drunkenness have positively declined. The continued unrestricted sale of beer having an alcoholic content of not more than 3.2 per cent is clearly the part of wisdom.'"

The inaccuracy of the charge is obvious.

Some self-made men should have called for assistance.

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Dinosaurs.

They have a new party in Belgium. It is known as the Dinosaurs, a contraction of the words Dietseche Nationalist Socialist. Dietsech is an old word for Netherlands. Dietsech by race are the Hollanders, the Flemings in Belgium (but not the Walloons, who are French) and the Flemings in France. The aim of the Dinosaurs is to unite all these people in one great "Dietseche" state, that is to say Holland, and all Flanders, right down south into France to Calais and Boulogne, which are really two old Flemish cities, with the names Kalen or Boonen.

To reach this goal the Dinosaurs have begun a campaign, using the methods of their spiritual kinsmen the Nazis in Germany. Many priests believe to the Dinosaurs, many poets, too, and other intellectuals. If the Dinosaurs succeed it will be the dismemberment of the Belgian state. This would be no great calamity to anyone in Belgium, except to the royal family. But it would be a first-class calamity in France, for Belgium as constituted at present is the great bulwark of France against Germany. Quite naturally France is therefore opposing the Dinosaurs by supporting the Walloons, that is to say, the French element in Belgium. French critics and observers sneer and laugh at the Dinosaurs movement. Foolish people! The rise of Hitler ought to have taught them that the Dinosaurs do grow and wax strong on foreign opposition.

Curiously enough, the social-democrats in Belgium are an extremely strong both among the Walloons and among the Flemings, are now emerging as the strongest pillar of the Belgian state. They are doing so against the Dinosaurs, because of their Nazi character. But that in itself is no guarantee either that the Dinosaurs movement, which is really a continuation and augmentation of the Flemish nationalist movement, is going to remain insignificant and without influence. Unless the Belgian government can create some super-nationalist movement, transcending the interests of Flemings and Walloons both, the state is in for a rough passage. For such a nationalism—this larger nationalism—a Belgian nationalism, there is little likelihood, for the simple reason that there are no Belgians, there are no Flemings and Walloons who live in a country that was artificially and wrongly dubbed Belgium in 1830.

President Still Confident.

From a friend, a prominent diplomat who was recently a guest at President Roosevelt's town residence in New York, we heard the following: The president is pleased with recent economic developments in the United States. Employment is rising, and while prices are also rising, the president feels that on the whole they are doing so in an orderly and reasonable manner. These points, he said, had fallen farthest are now rising fastest. It is considered that this is as it should be, and the chances seem good for the recovery of the nation. A parity among the main fundaments of price.

Health Talks

BY DR. WILLIAM BRADY

THE PHYSIOLOGY OF BREATHING.

Old timers assumed that the "type" of breathing was determined by sex; that in men the breathing is "abdominal" and in women it is "costal," that is, more a matter of rise and fall of the upper chest and ribs. More precise observations and measurements made with the hindrance of clothing removed have shown that sex has nothing to do with it, and that the natural and efficient breathing for everyone is the breathing I call belly or bellows breathing.

Capacity. This is the measurement of the quantity of air that can be breathed out by the deepest possible expiration after one has taken the deepest possible inspiration. This total lung capacity measured with a spirometer amounts to approximately a gallon.

Tidal Air. This is the amount of air breathed out in a normal quiet expiration, approximately a pint. Complementary Air is the amount of air one can breathe in by an effort, above and above the tidal air, and measures a little over three pints.

Supplemental Air is the amount one can breathe out or blow out by an effort after the ordinary quiet expiration of tidal air, and this also measures a little over three pints.

Residual Air, approximately a quart, always remains in the lungs after the deepest possible expiration one can make.

During ordinary, quiet, unconscious breathing there is a reserve supply of air in the lungs amounting to two quarts, or half the capacity of the lungs. The residual air plus the supplemental air.

Don't get confused about all these air figures. We are not talking air in eridition. We just thought you might wish to know. There is still one more air to mention. Minimal Air. This is the small amount of air that remains in the lungs after the thorax has been opened. Opening of the thorax usually occurs accidentally causes the lung to collapse, but with collapse of the lung drives out the residual and supplemental air, enough is trapped in the lung cells to make the lungs float, even if pieces of lung are cut out, removed from the body. The minimal air makes the lungs "float." If the lung will float it is proof that a child was born alive and breathed at least once. It is not of definite significance in drowning cases, for in most drownings there is little or no water in the lungs.

Exchange of Oxygen and Carbon Dioxide. Air ordinarily is a mixture of 78 parts of nitrogen with 20.96 parts of oxygen, and 0.04 parts of carbon dioxide. In the lungs the amount of oxygen is absorbed and considerable carbon dioxide given off from the blood is added to the air, so that the air expired is a mixture of 77 parts of nitrogen, 16.02 parts of oxygen and 4.38 parts of carbon dioxide. The increased proportion of carbon dioxide in the expired air is put to good practical use in a simple home treatment that has proved efficacious in cases of intractable hiccup. Hold an ordinary paper bag over the patient's nose and mouth and let him breathe into the bag for a few minutes. He thus inhales a concentration of carbon dioxide and oxygen similar to that administered from an inhalator and gas tanks. It is quite harmless in any case.

Woman Succumbs.

BALTIMORE, Nov. 3.—(AP)—Mrs. Laura Gerber, 54, who was struck by an automobile last night as she was walking on the Baltimore-Washington boulevard, died early today.

News Behind the News

By Paul Mallon.

TINTING WASHINGTON, Nov. 3.—The conservative complexion of the R. F. C. may be roughly shortly.

Certain inner administration circles want to give it a more liberal and lifelike tint. They are campaigning inside for some one of the hue of Amos Pinchot, brother of garrulous Governor Gifford Pinchot, of Pennsylvania.

Their idea is that the R. F. C. now is full of pale-faced conservatives. That was all right as long as the corporation was slated for the scrap-heap as an obsolete Hoover institution. Now that Mr. Roosevelt has decided to revive it, they want a more evenly balanced board.

They are not trying to rub out Chairman Jesse Jones, but rather one of Jones' associates mentioned in the stock market investigation.

TRICKS This sudden turnover in the NRA was not as suspicious as it looked. What gave it the suspicious appearance was the fact that the publicity went haywire.

The truth seems to be that the five big businessmen on the NRA advisory council had been secretly planning to get out for some time. They had the very legitimate excuse that their own private business needed them. They were embarrassed by the opposition stirred up in the country against the NRA. If they quit cold they would lay themselves open to the charge of trying to harpoon the administration.

So they devised the rotating system of resigning to protect themselves against public suspicions. It made their retirement appear to be only temporary.

The trouble with that was a peeping newspaperman found out about the resignations and published the story before the NRA officials were ready to put it out in a proper way.

SWOPE The Swope plan had been under consideration backstage for a long time. While it bears the name of Gerard Swope it was previously suggested by Pat Hurley, the Hoover secretary of war. He interpreted the NRA as a co-operative business venture in that radio speech he made several weeks ago. He got the idea from what Mr. Roosevelt had said months before.

More recently General Johnson had different plans. His associates wanted to carry the NRA into more radical ground eventually, with more government control, instead of less.

The public reaction into which the NRA has run recently prevented the fulfillment of that plan. The current situation demanded retrenchment and reorganization, so Johnson gave consideration to the conservative Hurley-Swope plan, at least two weeks before it was made public.

But here again both sides were forced into premature publicity. The details had not been worked out before Swope offered the plan. Johnson immediately saw Swope was going further in a conservative way than he intended to go.

The result was more confusion.

ESSENTIALS

The whole thing seems to boil down to this: Big business is taking its golden opportunity to force reorganization of the NRA along more conservative lines. The administration master minds have been stymied by public opinion. They are inclined to compromise.

That makes it appear the future course of the NRA will have to be toward conservatism, temporarily at least.

After all, that is only a return to the original principles first laid down by the administration when the act was passed in congress. It eliminates most of the militant fire breathed into the set-up by General Johnson. It returns to what Mr. Roosevelt told business in his speech to the chamber of commerce early in the summer.

That means more co-operative management of business by itself and less big-sticking by the government.

RUMBLINGS

The sub-surface republican situation in New York is by no means placid.

Congressman Wadsworth is in a corner sucking his thumb and eyeing the strange association of his conservative confrere, Ogden Mills, with Fiorella LaGuardia. Wadsworth will have nothing to do with LaGuardia—or Mills.

Mills' friends believe that if LaGuardia wins, Mills will have the whip hand in republican affairs of the Empire State. They expect trouble from Wadsworth.

SUPPRESSION

That Cuban letter suppressed by the stock market investigating committee did not amount to anything. It merely contained the names of certain men who had been threatened with violence. Committee members felt violence against these individuals might be encouraged if the letter was made public, especially after it had received so much publicity.

NOTES

Honest stock marketeers need not be so worried about prospective administrative moves to curb speculation that will not be interfered with.

Several hundred companies furnishing parts for Ford are fearing that the NRA piners may hurt them, although they are NRA dealers themselves.

A Norfolk correspondent suggested that the young girl who swam from San Francisco Bay prison, after Attorney General Cummings said it could not be done, was not a republican, but a lame duck.

All opposing factions are trying hard to keep the Rockefeller name out of the Pecora investigation of Chase National bank. It has been mentioned only once, when Albert Wiggin testified that the Rockefellers were the largest stockholders in the bank.

Letters From a Bald-Headed Dad to a Flapper Daughter

BY ROBERT QUILLEN

My dear Louise: Like others of your age, you sometimes resent the scheme of things that makes unpleasant duties interfere with pleasure. And doubtless you blame the adults who have authority over you and think how nice the world would be if man hadn't invented work.

But man didn't invent it. Nature's plan doesn't permit loafing. If one person is privileged to loaf all the time, some other is doing his share of work.

So far as I have been able to discover, there is no living creature that is able to live without a regular job. And some of them work harder than any dissatisfied "wage slave."

We have an example right here at home. Little Buddy Jones, who lives across the street from us, has a pair of scrub bantams. The little black hen "stole her nest" this summer and hatched out a family of eight.

For some reason, probably economic, she decided to get her living on her own and return to the Jones place only at night.

Neither the R. F. C. nor the NRA nor anybody in our household has knowingly contributed a grain to her support. She has had to dig for every morsel.

Though a widow with eight children to support—a grass widow, more's the pity—she is the most cheerful individual I know. And by far the most industrious.

This morning I went out on the front porch "before day" to get the paper, and there was the lawn scratching for breakfast. One stroke with the left foot, two with the right, and then a momentary pause while the children got another helping.

The street lights were still on; the eastern sky held only a faint promise of dawn; the heavy morning air was still unperfumed by the first breakfast fires; my indolent neighbors were still asleep. But this little widow was already on the job and her cheerful clucking contained no hint of self-pity or resentment.

Her daily running to and fro and the daily sum of her scratching must be equivalent to the labor of a dozen harvest hands.

Yet she is no exception. The robins that built in the rose vine worked as hard to prepare their house, and harder still when each of their three youngsters began to consume his own weight of rations between dawn and dusk.

This work business is a natural law and there is no way to evade it except by sponging. So long as you share the earth's bounty, you must do your share of the scratching.

Love, DAD.

MRS. PAUL F. JOSE

WIDOW OF INJURIES

Funeral of Sister of Ex-Governor Walker To Be Held Today.

Injured when the car in which she was riding collided with a Stone Mountain street car in Decatur, Mrs. Paul F. Jose, 45, of Monroe, a sister of former Governor Clifford Walker, died Friday afternoon at the Atlanta hospital.

Her sister, Mrs. Irene Walker Field, and her niece, Miss Alice Field, both of Monroe, were also in the car but were not seriously hurt. Mrs. Field is confined at the Atlanta hospital but her condition is showing improvement. Miss Field, a student at the University of Georgia, was only slightly cut and bruised and was dismissed after treatment.

Miss Field was driving when the street car collided with her automobile at McDonough street, in Decatur, Monday night. Her mother is postmistress at Monroe.

Mrs. Jose is also survived by her mother, Mrs. B. S. Walker, of Monroe; three other sisters, Mrs. J. B. McCarty, of Atlanta; Mrs. Robert McWhorter, of Athens; and Mrs. Harrold, of Americus; her brother, former Governor Walker, who is a widely known Atlanta lawyer.

The body was taken Friday night to Monroe by H. M. Patterson & Co. Funeral services will be held at 3:30 o'clock eastern time, this afternoon at the First Baptist church, in Monroe. The Rev. J. A. Clark will officiate and interment will be in the family lot in the Monroe cemetery.

MILK PRICE TEST GOES TO HIGHEST U. S. COURT

ROCHESTER, N. Y., Nov. 3.—(AP) Because Leo Nebbia, a grocer, gave away a loaf of bread with a milk can, the supreme court of the United States will pass upon a state's right to fix the price of milk.

Nebbia's objection to minimum price regulations of the state milk control board may become a focal point for a test of other state laws, the NRA and A. A. A. price fixing provisions. Nebbia was convicted in city court of violating minimum price regulations and was fined \$5. His attorney carried the case to the New York state court of appeals, where the conviction was upheld.

Arthur E. Sutherland Jr., Nebbia's attorney, is a former law clerk in the office of Justice Oliver Wendell Holmes, of the United States supreme court. Henry S. Manley, counsel to the milk control board, in a recent speech, said the case might possibly be regarded as a test of the constitutionality of price fixing regulations under the NRA and the A. A. A.

U. S. Girl and Moslem Slain in Jerusalem

JERUSALEM, Nov. 3.—(AP)—Joan Winters, described as an American professional dancer, and an Indian Moslem were found slain at the foot of the Mount of Olives, near the Garden of Gethsemane, today.

The two bodies were found in an olive grove outside the city wall. Police found no clues as to their assailants.

Authorities said they were at a loss to account for a motive.

The slain Indian was tentatively identified as Mohamed Karaman, an Indian civil servant from Madras.

The American dancer, Joan Winters, was found slain in an olive grove near Jerusalem was tentatively identified tonight as 25-year-old Carol Godfrey, of Brooklyn, who had been planning to return home soon after a year and a half in Palestine.

Mrs. Bert Godfrey, her mother, and John Taft, an uncle, said they believed the bodies were those of their daughter and niece, who had appeared in a few stage productions under the name of Joan Winters.

Farm Agents O. K. Tobacco Cut Plan

RALEIGH, Nov. 3.—(AP)—Unanimous approval of the proposed acreage reduction contract for flue-cured tobacco was expressed here today by county agents and farmer representatives after the tentative draft had been explained by 1,000 attending delegates to the agricultural adjustment administration.

Present at the meeting which will be continued tomorrow were farm agents from the 57 flue-cured producing counties, the executive committee of the tobacco growers' advisory board, extension specialists and representatives of the agricultural credit administration.

The Ford Company, in its reply to the strikers' demands, declared that three of the four points proposed for an agreement already are a part of company practice.

Ford Reply Rejected By Striking Workers

EDGEWATER, N. J., Nov. 3.—(UP)—The Ford Motor Company's reply to the strikers' demands for a "Lindbergh" kidnapping law relating to using the mails for extortion and kidnapping threats.

The maximum penalty under this provision is 20 years' imprisonment. However, an admission came after a search of the man's home revealed stationery similar to that on which the extortion notes to Reynolds were written. He said Lanier took blame for the threats and did not involve anyone else.

Hoover added he was advised Lanier had at one time worked for a member of the Reynolds family.

The bureau of investigation has been working with North Carolina authorities on the case since October 3, three days after Reynolds received the first of two extortion notes.

Investigators from the Charlotte office were assigned to work with Sheriff Transon Scott, of Winston-Salem. Hoover is commenting that the case raised the work done by Winston-Salem authorities leading up to the arrest of Lanier.

WEAVER TO SUPERVISE SUGAR AGREEMENTS

WASHINGTON, Nov. 3.—(AP)—A. J. S. Weaver, head of the rice section of the farm adjustment administration, Thursday was named chief of its newly formed sugar section.

Weaver had had no previous experience with sugar, but his record in handling rice problems led to his selection. He will deal with proposed sugar marketing agreements and other recommendations to aid such producers.

ADVANCE GIFTS ASKED FOR CHEST

Annual Appeal Is Sound- ed in Behalf of Atlanta's Unfortunates.

Declaring that the fate of thousands of Atlanta men, women and children depended on the response of the donors in the advance gift group, the Community Chest headquarters Friday afternoon issued an appeal to those listed in that category to respond promptly and generously.

Volunteer workers are now canvassing the advance gift list preliminary to opening of the general campaign Tuesday, November 14.

It was declared in the statement that men, women and children in Atlanta are in actual danger of starvation this winter and that failure on the part of those solicited to respond promptly and generously is equivalent to sentencing those unfortunates to intense suffering.

"The cold facts must be faced," it was stated. "When you say 'no' to the Community Chest, you are voting death to your fellow—to little children, to women, to men frantic in their desperate efforts to find anything that will keep body and soul together."

In what was called "a logical appeal to the thinking man," it was pointed out that the community interest demands that contributions to charity be made through such an agency as the Community Chest, which it was said will make your welfare dollar go further for you.

It was pointed out that hundreds of Atlanta's most honorable, most dependable citizens, serving without pay, say how the Community Chest money shall be spent. It was pointed out that this group is in close touch through constant study with existing conditions; is able to buy supplies in bulk cheaply and without waste, and will make every penny do "cents' worth."

"Remember," said the appeal, "that the situation is most serious. The measure with which big savers respond this week will govern to a large extent the degree in which acute suffering and misery are eliminated. Remember it is actually a case of men, women and children facing starvation unless those who are able to do so give."

It was urged that when Community Chest workers call on offices business men see them with the least possible delay, giving them the "right-of-way" in order to speed the campaign.

CHARLES FRANCIS CONN TO BE BURIED SUNDAY

Charles Francis Conn, former resident of Decatur, who died October 18 in New York city, will be buried at 3 o'clock Sunday afternoon in the family lot in the Decatur cemetery. Masonic rites will be held.

Mr. Conn, who was secretary and treasurer of the J. G. White Engineering Corporation, was a member of the opening class in 1888. His family resided where the campus of Agnes Scott now is located, and Mr. Conn retained ownership of the old home for many years after going to New York following the death of his parents.

A frequent visitor to Decatur, he had many friends there. He was a member of the American Society of Civil Engineers, the American Society of Mechanical Engineers, and was a fellow of the American Institute of Electrical Engineers.

MITES HELD IN ILLINOIS FOR ROBERT HARRISON

Funeral services were conducted Wednesday at Edinburg, Ill., for Robert Ernest Harrison, a former resident of Atlanta, who died at Chicago the previous Saturday after an illness of several months.

Mr. Harrison was born at Lumpkin, Stewart county, Georgia, in 1871, and was the only son of Robert Bryan Harrison and Emma Rockwell Harrison. For some years he had been resident of Chicago as manager for the California Fruit Growers' Exchange. He is survived by his wife, formerly Miss Jessie Wright, of Edinburg; by his father, well-known in Atlanta newspaper and civic circles, and a number of other relatives.

MRS. MARY WELLBORN IS LAID TO LAST REST

Funeral services for Mrs. Mary Amanda Wellborn, who died Wednesday at her residence at 665 Home avenue, S. E., were held Friday morning at the Georgia Avenue Presbyterian church, the Rev. Robert Ivey officiating. Burial was in West View cemetery.

Mrs. Wellborn, who was 86 years of age, was a pioneer resident of Atlanta and was active for many years in the affairs of the Georgia Avenue Presbyterian church. She is survived by her husband, W. C. Wellborn; two sons, A. C. and R. S. Wellborn, and a brother, Lucius Norris, all of Atlanta. Awtrey & Lowndes were in charge.

R. R. HARRIS IS GIVEN 2-YEAR PRISON TERM

Richard R. Harris, once cashier of the First National Bank of Rome, and 70 years old, was given a sentence of two years in the penitentiary Friday by Judge E. Marvin Underwood, of the federal court, on a charge of appropriating to his own use \$22,500 of the bank's money. He had previously pleaded guilty.

Harris sold the bank bonds belonging to Mrs. B. I. Hughes, to whose safety box he had access, the indictment charged. In passing sentence the court said that protection to society demanded it despite the defendant's age.

MEXICO, U. S. CONFER ON COUNTRIES' CLAIMS

MEXICO, D. F., Nov. 3.—(AP)—Ambassador Daniels conferred for an hour late yesterday with Acting Foreign Minister Jimenez Dominguez, apparently in connection with negotiations for a lump sum settlement of all Mexico-United States claims. It is expected an agreement will be reached before the end of the year.

In Georgia's Fields and Streams

By H. A. CARTER

DOGWOOD THROUGH THE SEASONS

Of all the plants that grace the forests, no single one has the charm for me that a single species known as Cornus florida possesses. Let's call it dogwood. The name is poor enough, but it gives a bit more of a thrill than the Latinized words can ever have in this case.

Consider the moonlight nights of spring, when the whiteness of these blossoming trees shines with a ghostly beauty in otherwise barren woods. I have plotted my course through night forests by the shapes of these trees in moonlight. There is a sort of unearthly beauty about them that brings to mind those magic lines from Coleridge:

"A savage place, as holy and enchanted
As e'er beneath the waning moon
By woman, waiting for her demon lover."

Dogwood by summer, becoming more earthly in its garb, has lost the forbidding beauty of white, and has become a sheltering shade tree, diminutive in size, perhaps, but none the less effective for all that. It has a

clustering mass of green leaves with a charm all their own. And as fall approaches, the tree seems actually to become friendly. Its leaves at this present time are a red that is found on no other tree of my acquaintance. And in the leaves there are small clusters of red berries that tempt the passing birds. At this time of the year it is likely to suffer quite as much as in the spring, for each mantelpiece it seems must have its "autumn leaves." Curses on the practice! Here we have the loveliest tree that has ever graced Georgia, yet our population is enthusiastically trying to reduce its chances of survival to an absolute zero.

This column started too late in the spring for me to vent my anger during the blossoming period. But now that the trees are again in danger, my blood pressure mounts, and I work up into a fine wrath whenever I see a casual party in the woods, "loving nature" to the extent of breaking whole branches and otherwise denuding next spring's landscape before it has a chance to speak for itself. Save your dogwood! It is infinitely more beautiful in the woods where it belongs than stifling in a vase on a table.

A fare of \$8.75 for the round trip has been authorized for tickets good in coaches only, which will be good on either the Southland leaving at 7:40 a. m. or the special train leaving at 12:05 p. m. Friday, November 10, and arriving in Chicago next Saturday morning. Tickets will be good returning to leave Chicago as late as 11:45 p. m. Sunday.

NEW YORK DRIVE ON FINAL STRETCH

LaGuardia, McKee Encouraged by Developments in Mayoralty Race

NEW YORK, Nov. 3.—(AP)—With Tammany Hall asserting that Mayor John P. O'Brien's campaign is rapidly gaining momentum, forces behind Fiorello H. LaGuardia and Joseph V. McKee plumed themselves at the start of the mayoral campaign tonight with renewed vigor.

Despite Tammany's display of confidence in O'Brien's ability to win, backers of LaGuardia and McKee were encouraged by developments of the past 24 hours.

LaGuardia's sponsors pointed to the turnout for his monster rally last night in Madison Square Garden and the cheering that greeted his attacks on McKee and Tammany.

In the McKee camp, the independent democrat's backers were elated over the open support he was accorded by Postmaster-General James A. Farley, state and national democratic chairman, and Professor Raymond Moley, formerly a power among President Roosevelt's advisers.

Meeting again on the same speaking platform, Mayor O'Brien and LaGuardia exchanged pleasantries—with the latter again paying tribute to the mayor's personal integrity. O'Brien, who as mayor was entitled to speak first, waived the privilege at LaGuardia's request.

"As you know," said LaGuardia, "Mayor O'Brien and I are candidates, and not on the same ticket. Mayor O'Brien makes no apologies for his ticket, quite unlike one of our opponents who one day announces and the next day repudiates various supporters."

"The difference between Mayor O'Brien and myself is a fundamental one and not a political one. That I am opposing is not Mayor O'Brien but the political machine which he represents."

"No one doubts the personal honesty of the mayor, but under the present system he or anyone else in that position is helpless," LaGuardia continued. "The mayor is the creature of the political bosses, whether his name is O'Brien, Walker or Hylan."

Roosevelt Bank Order Is Upheld by Court

WASHINGTON, Nov. 3.—(AP)—President Roosevelt's proclamation closing the nation's banks has been declared legal by the District of Columbia supreme court.

A decision upholding the legality of the March 6 proclamation, it was made known today, was handed down last week by Justice F. D. Letts.

It was made in the case of Daily Brothers, Inc., of Washington, who had asked that Thomas P. Hickman, conservator of the Franklin National Bank of this city, be compelled to deliver certain bonds in his possession.

In dismissing their suit, Justice Letts held that the bank was officially closed on March 6 and that the transaction could not be considered as completed before appointment of the conservator since the bank had no authority to do business after the president's proclamation.

HARMONICA BAND TO SMOOTH WAY FOR BOY, MOTHER

PHILADELPHIA, Nov. 3.—(AP)—Ten-year-old Norman Klase, who earned pennies in tinware shops with a little tin mouth-organ to save his mother from starvation, has played his way into what promises food, a home and realization of his dearest ambition.

The child's pathetic story became known the other day when his mother collapsed on the street. At a hospital she told of trapping to this city from Allentown, Pa., wandering from one rooming house to another for weeks and existing on what Norman earned with his dime harmonica.

Temporarily, the child was placed in a foster home, but a new future dawned for him yesterday, aided by the women's committee of the Philadelphia Harmonica band.

"Our plans are not completely formulated, but we expect to see that Norman never again has to turn his harmonica to this type of music in support of himself and his mother," said Mrs. Benjamin F. Maschell, co-chairman of the committee.

"We hope to take him into the band and also hope to see that his dreams of going to art school and maybe later to college come true. Our committee right now has enabled 45 young boys to go to colleges and universities."

"We expect to see that everything he needs he has and if he has any real talents that they are developed." And last, but by no means least, in Norman's eyes, the committee sent him a brand-new harmonica with a book of instructions!

Milk Shortage Looms In Birmingham Strike

BIRMINGHAM, Ala., Nov. 3.—(AP)—A milk shortage was in prospect tonight as distributors and producers remained adamant over the price for the raw product.

The first day of the strike, called today, ended as quietly as it began, with producers turning to condensaries and cheese factories to dispose of their product.

There was a report, however, of picketing the highways if the boycott called by the Alabama Dairy League, representing 75 per cent of the city's milk supply, is not observed. This was denied by one league spokesman.

Producers are demanding an average of \$2.35 per hundred pounds against the \$2.15 paid at present, and said until their price was met no more milk would be shipped into Birmingham.

SALE OF HIS BOOK WILL FINANCE RACE

A unique method of financing a campaign for the Georgia house of representatives has been chosen by Arnold W. Little, of Hampton, Henry county, Georgia. He has written and published a booklet entitled "Stepping Stones to Right Living," containing poems, a play, anecdotes and songs, and is financing his campaign by the proceeds of its sale. The booklet deals with rustic scenes, for the most part, and is his first published work.

C. C. MANSFIELD, 75, DIES AT MORGAN, GA.

C. C. Mansfield, 75, father of Miss Cleo Mansfield, nationally known artist, died Thursday night at his home in Morgan, Ga. He was a member of a prominent south Georgia family. Miss Mansfield is widely known in the south through her work which has appeared in The Constitution.

Mr. Mansfield also survived by his wife, and another daughter and son. Funeral arrangements have not been announced.

Prisoner Refuses Offer Of Directed Acquittal

CHARLESTON, S. C., Nov. 3.—(AP)—John E. Long refused to accept a directed verdict of acquittal in a liquor conspiracy case here today, saying "I'm not guilty and I want to prove it."

Long was on trial here with his son and 35 others in federal court on charges of conspiracy to violate the prohibition and tariff acts when Judge J. Lyles Glenn directed the verdict.

"Your honor," said Long, "I am a respectable citizen and my reputation is at stake. I don't want a directed verdict of not guilty. That man (a government witness) has lied and I want to prove it."

Long's counsel said he could substantiate his client's contention and the judge said he would take up the matter when he comes to it.

Roosevelt May Use Works Funds for Aid

WASHINGTON, Nov. 3.—(AP)—President Roosevelt and his advisors are mapping out a broader relief program with the purpose of using public works funds to aid in the removal of persons from the public relief rolls.

Of the 5,500,000 heads of families now on relief rolls Mr. Roosevelt understands about half are on part-time work of a public character.

He would expand this work through public works funds so that this half would have their names removed from the rolls.

Mechanics of this proposition have not been worked out but the president is looking favorably upon this use of public works funds for relief work.

\$4,000,000 IS ALLOTTED FOR ARIZONA PROJECT

WASHINGTON, Nov. 3.—(AP)—The public works administration today made an initial allotment of \$4,000,000 to begin construction of the \$18,912,000 Verde irrigation and power project in Arizona.

At the same time the administration announced allotments totalling \$13,578,855 to 41 non-federal projects in 15 states.

The public works administration today made an initial allotment of \$4,000,000 to begin construction of the \$18,912,000 Verde irrigation and power project in Arizona.

Tom Mix, Tony and Company Here For Engagement at the Georgia

Bringing with him a caravan of his world-famous cowboys and horses, Tom Mix, the world's greatest western movie star and the hero of thousands of boys and girls the world over, and adults too, arrived in Atlanta this morning, in person of course, to begin a four-day engagement at the Georgia theater. The engagement will include complete performances on Sunday, with the theater opening at 1:45 p. m. on that day.

Traveling in three large motor vans, valued at \$50,000, the company arrived early and work was immediately started in getting the large Georgia theater stage set for the four performances that will take place today, in addition to a complete program of pictures on the screen.

In addition to the offering of trained horses, roping, knife throwing and other western sports and pastimes, Tom Mix will offer as a special added attraction Mrs. Tom Mix and her sister, Irma Ward, recognized premier aerialists, who for several years were the star performers

in the Bell-Floto circus, who will present their striking act on the Georgia stage.

The Tom Mix show comes to the Georgia after a successful tour of Florida, where theater records were broken at every appearance that the famous movie star made while in that state.

Although children are supposed to be very much interested in western pictures, many adults have for years followed the exploits of Tom Mix and Tony on the screen, and they are just as anxious to see the western hero as the kiddies. Tony, the famous horse, also will take the party and will be presented from the stage to the audience.

The feature picture will be Clive Brook, Miriam Jordan and Herbert Mundin in "Sherlock Holmes." This is the first time this picture has been shown in Atlanta.

ESTATE OF CERMAK

ESTIMATED AT \$501,500

CHICAGO, Nov. 3.—(P)—The estate of the late Mayor Anton J. Ceramak was estimated at \$501,500 in an inventory filed in probate court today.

The inventory listed real estate valued at \$22,250, stocks and bonds at \$107,642 and other assets totaling \$271,608. The latter item included about \$35,000 cash.

Seminole Beauty Dies

FT. MYERS, Fla., Nov. 3.—(P)—Lena Cypress, reputedly one of the most beautiful of Seminole Indians, is dead. News of her death was brought 60 miles afoot here by braves of the tribe, who reported she died five days after the birth of a son. Lena was the wife of Richard Osceola.

"Solitaire Man" Opens 7-Day Run at Rialto

A picture, remarkable for its sustained suspense comes to the Rialto theater today for a seven-day engagement, including Sunday. It is "Solitaire Man," Metro-Goldwyn-Mayer production of a story dealing with a band of society jewel thieves and with the greater part of its action happening in the cabin of a passenger plane flying from Paris to London.

There is a mysterious murder, a group of shrewd and likeable crooks and a police informer against whom they battle with wit and nerve, as the flying plane soars across the dark waters of the English channel. The development after development that brings utter surprise and a finish that leaves you feeling as though you want to cheer.

The story is enacted by one of the most perfectly selected casts ever seen in any picture. May Robson, Herbert Marshall, Elizabeth Allan, Ralph Forbes, Mary Boland, Lionel Atwill, Lucille Gleason and Robert McWade all play important roles. It was taken from a play by Bella and Samuel Spewack while Jack Conway was the director.

It is suspenseful from start to finish, with hilarious comedy provided by Mary Boland to relieve the strain which would be too intense without these breaks of laughter.

Manager W. T. Murray has an excellent group of short subjects also on his program which, with seven days showing, is apt to make new box office records at his downtown house of popular priced entertainment.

Jamboree at Buckhead

A special stage "jamboree" will be given tonight at the Buckhead theater by a group of radio and stage stars headed by Billy Beard, the famous blackface comedian. The stage program will be broadcast directly from the stage over WSB.

"Morning Glory" Plays At Paramount Today

Katharine Hepburn, Douglas Fairbanks Jr. and Adolphe Menjou. Every name a box office magnet, and in "Morning Glory," which starts today at the Paramount, they are all united in a swift-moving film which tells a story that parallels in many respects Miss Hepburn's own real life experience in fighting her way to stage fame.

A star who swept comet-like to screen heights in one film, the dynamic Miss Hepburn has captured the popular imagination as no other favorite in the history of the cinema.

Not content with providing a star like that with two such top notch luminaries as Fairbanks Jr. and Menjou as cast running mates, RKO-Radio has scored the master coup of presenting them in a powerful drama which will attract added interest because of its resemblance to Miss Hepburn's life.

The role of the spectacular Hepburn girl plays is that of an unknown in the art of acting who goes to New York and makes Broadway yield her acclaim. There are bitter disappointments, heart-breaking reverses, and periods of heroic struggle before her final dazzling triumph.

"Damaged Lives" Opens At Erlanger Monday

Advance word of the picture, "Damaged Lives," which is scheduled to open at the Erlanger theater on Monday for a week's engagement, heralds it as a tense, human drama, dealing with the victims of venereal disease.

While this subject is dealt with in a wholly understandable manner, it is, nevertheless, handled with rare tact and dignity, it is said, and drives home a lesson of inestimable value, not only to young men and women, but also to every adult, especially fathers and mothers, who too frequently shrink from informing their growing children of the lurking peril of this type of disease infection.

The picture is sponsored by and has the endorsement of the American Social Hygiene Association. An added feature showing fundamental details of reproduction and the prevention and cure of such diseases, accompanied by an interesting and informative lecture, was made under the direct supervision of officers of the association.

"Damaged Lives" will be presented continuously from 1 to 11 p. m. throughout the week at the Erlanger.

Atlantan Building Compressed Air Rail Bus For 125 Mile-an-Hour Travel at Low Cost

William E. Boyette, Atlanta inventor, here is shown with his new compressed air railroad bus which, he claims, will make 125 miles an hour. An Atlanta-Jacksonville test run will be made November 15.

By PERRY W. MULLEN, Associated Press Staff Writer.

An engine designed to derive power from compressed air that is replenished as it runs and to develop a speed of 125 miles an hour is nearing completion here. It is a railroad model, built by its inventor, William E. Boyette, formerly of Jacksonville, Fla., and Birmingham, Ala., who has demonstrated the success of the engine in an automobile.

In outlining revolutionary changes in transportation systems he said he hoped the engine would develop, Mr. Boyette said. He had been threatened "in every conceivable manner" by the railroads, he said, if he proceeded with the experiment.

The engine is expected to be ready for a test run to Jacksonville by November 15. The inventor said he hoped to make the run with a minimum expenditure of \$24,000, which would be the cost of recharging the battery of an auxiliary engine.

He first demonstrated the principle of the engine in September, 1931, at Jacksonville with an automobile model and all sorts of parts. He did not continue his experiments on the type of engine, he said, because he could build a model that would be suitable for railroad use for the same cost. He had been threatened to build a smaller unit. The tremendous demand on the part of railroads

for lower operating costs, he added, made it easy to obtain backing for the construction of an engine for railroad use.

Patents were obtained on April 15, 1933, Mr. Boyette said, on the showing made by the automobile model. The model now nearing completion is a steel chassis approximately 40 feet long with three sets of railroad wheels. It resembles a huge bus mounted on railroad wheels with all of the body removed except the front cab section where the driver sits.

Describing the principle of operation as "simple," he said the engine is composed of five units: an air compressor connected with the front wheels; an auxiliary compressor; electric motor; air engine; and an electric generator for recharging the battery.

The main power is derived from the front compressor directly connected with the wheels. The auxiliary compressor will be furnished by an electric motor connected to a 675-ampere battery. The generator, 110 volts, 210 amperes, is driven by the three sets of wheels, recharging the battery while in motion.

The auxiliary unit is used to put 400 pounds of compressed air in tanks that parallel the sides of the engine. Should the front compressor fail to maintain sufficient pressure, the aux-

iliary unit automatically cuts in at 380 pounds, the inventor said, building the pressure back to 400 pounds.

Controlled by Throttle. Speed is controlled by a throttle from the top to the engine similar to the principle used in the standard locomotive steam engine.

Several prominent Atlantans are included in backers of the invention. The group formed a \$70,000 corporation to build the model. In the event it proves successful, the inventor said, the same principle would be applied in building automobile engines.

Forty persons have been invited to make the run to Jacksonville, including the governor of Georgia and two, executives of the General Electric Company, railroad officials and others.

Work on the invention was started five years ago by Mr. Boyette, who said he had been experimenting along similar lines many years. He was born in Birmingham, Ala., and lived there until he went to Jacksonville in 1923, with the exception of several years spent in the navy. He gained much of his mechanical experience around Birmingham steel mills.

In Jacksonville he was division manager of three southern states for a Chicago candy company and later was connected with a wholesale coffee company.

PRICE-FIXING PLAN STUDIED BY F. D. R.

Continued From First Page.

Officials were interrupted from time to time as they received messages from the governor's office asking for price fixing and asserting that the farm strike movement was spreading. Reports were also received telling of violence in Wisconsin, Nebraska and Iowa as an outgrowth of unrest among farmers.

Ask Farmers' Code.

At a previous meeting in Des Moines the governors agreed to ask that price be fixed at production costs plus a "reasonable profit" to farmers, that this be incorporated in an NRA code for agriculture, and that farmers be assigned quotas and licensed.

Olson said that since opening discussions here, they had been informed that prices were higher than production costs as determined by cost accounting methods, so he adopted a new goal. Parity is the price for a product sufficient to give its producers a fair purchasing power.

He said they also found an NRA code would not be possible because the industrial act specifically exempted farmers from its licensing provisions under an amendment passed by Senator Long, democrat, Louisiana. The governors then turned to the provision in the farm act that authorized Wallace to enter into marketing agreements, or to prescribe them and to control the marketing of commodities, and to the provision that authorized Olson said called for:

Tentative Price List.

Fixing prices of the six commodities by December 2 at parity which would be \$1.05 a bushel for wheat; 75 cents a bushel for corn; \$8.50 a hundred pounds for hogs; \$4.70 for beef cattle; \$3.05 cents a pound for butterfat; and \$2.08 a hundred pounds for milk.

Licensing of handlers and processors of these commodities to require them to pay the fixed price for the commodities would mean license for packers, millers, manufacturers of corn products, creameries, cheese factories and plants distributing milk.

DR. EMILE ROUX 80, CLAIMED BY DEATH

Former Director of the Pasteur Institute Succumbs in Paris.

PARIS, Nov. 3.—(P)—Dr. Emile Roux, 80, former director of the Pasteur Institute, former right-hand man of Louis Pasteur, bacteriologist, and the last surviving collaborator with Pasteur, died today.

Dr. Pierre Paul Emile Roux had suffered from tuberculosis for years, while his colleague, Dr. Albert Calmette, who died October 20, struggled to discover a cure for the disease. Roux was born December 17, 1853, and led an ascetic life, eating simply and sleeping on a hard camp bed. To the rest of the world he was regarded as a legendary recluse and a hard worker who lived solely on bread and soup. He was director of the Pasteur Institute from 1904 to 1918.

DR. J. A. BURROW.

KNOXVILLE, Tenn., Nov. 3.—(P)—Dr. J. A. Burrow, of Chattanooga, secretary of the Holston conference of the Methodist Episcopal Church, South, died in a hospital here last night of a broken hip and other injuries sustained in a fall a week ago. He was 73.

JAMES MATHEWS.

MEMPHIS, Tenn., Nov. 3.—(P)—James Robert Mathews, 22, of Scottsboro, died here last night in a sleeping car attached to a train which was carrying him home to die.

MRS. GEORGE LACY.

RICHMOND, Va., Nov. 3.—(P)—A message received here today by the Baptist foreign mission board headquarters from Salisbury, Mexico, announced the death of Mrs. George H. Lacy, veteran missionary of the Southern Baptist church.

CAPTAIN E. H. MILLER.

VICKSBURG, Miss., Nov. 3.—(P)—Captain E. H. Miller, 45, master of the United States engineers department, died here today from a sudden organic disease that seized him yesterday while his vessel was plowing up the Mississippi river to carry him to an assignment in this district.

Captain Miller, in recent years, lived at Jacksonville, Fla. His body was held here today awaiting word from Florida relatives.

CLAYTON T. YEAGER.

ST. PETERSBURG, Fla., Nov. 3.—(P)—Clayton T. Yeager, 79, who organized the first tourist dancing club here a decade ago, died at a local hospital here last night. He was a retired manufacturer of Camden, N. J. Besides his widow, Mrs. Nellie M. Yeager, he is survived by three sons, Raymond, C. T. Jr. and Warren Yeager, this city.

JOHN T. WYATT.

SALISBURY, N. C., Nov. 3.—(P)—John T. Wyatt, known to hundreds of newspaper readers as "Venus of Faith," died early today. He was in his eighty-third year.

An eccentric little old man who lived alone in his old family home in the small town of Faith, he reported personal items from that community under the pen name, "Venus," in such an inimitable, homely style that his column was widely published.

HAL HOWARD.

MEMPHIS, Tenn., Nov. 3.—(P)—Hal Howard, 50-year-old Memphis businessman, at Church Point, La., where he was on a fishing trip, died here today attributed to a heart attack. Mr. Howard came to Memphis from Aberdeen, Miss. He was a graduate of the University of Tennessee.

EVINDARE WHITTIER.

ST. PETERSBURG, Fla., Nov. 3.—(P)—Brindard A. Whittier, former president of the Maine Tourist Society, died here last night at the age of 82. He was a winter visitor from Auburn, Maine, for 24 years.

DR. H. W. BROWNING.

LITTLE ROCK, Ark., Nov. 3.—(P)—Dr. Harry Wayne Browning, prominent Little Rock physician and surgeon, died today following a 10-month illness. He was 48.

representing the amount each would be allowed to produce and the amount each would be permitted to sell. The quantities farmed would be permitted to sell would be those which the department of agriculture ascertained could be absorbed by the processors.

Billions Necessary.

Olson said farm officials asserted it would be necessary to spend billions of dollars to purchase products which the processors might be unable or unwilling to purchase and that this would amount to stabilization which the department desired to avoid.

Olson added, however, that in his opinion there would be no actual necessity for stabilization, that the amounts farmers sold would be limited so as to prevent a glut of markets.

"We governors do not believe the plan is necessarily in finished form but that it is the basis on which the department experts should proceed in speeding up relief for agriculture," Olson said.

He rejected the program as Secretary Wallace says, we will be more than happy if they proceed to its consideration. Unless it is adopted, farm distress will continue.

"We take the position that the department should proceed with its present plans as far as possible but that our program should supplement it in order to get some immediate results for the farmers."

Olson and Langer both asserted that prices to consumers would not necessarily be increased by the program.

Co-operation.

Thus far in administering the farm act, the department has sought voluntary co-operation in working out all agreements from processors and handlers. He has imposed some agreements which only approximately 75 per cent of the industry was willing to sign and in these cases he has licensed the entire industry to require full observance, despite the opposition of minorities. His authority to do this has been challenged in the courts but no decisions from final courts of appeal have been made so far to determine its validity.

In the case of middle western farm commodities, in view of the reputed seriousness of the low-price problem, the governors suggested the agreement be proposed without extensive negotiations in order to shorten the time before the effective date.

Governor Langer and Herring asserted that the fixed prices could be opposed without any large increase in cost to consumers. They said margins of profit to handlers and processors could be reduced.

NEXT FRIDAY "PRIZE FIGHTER AND THE LADY"

Margaret Sullivan Is Thrilled By 'Only Yesterday' Reception Here

By RALPH T. JONES.

Margaret Sullivan called me by telephone Friday afternoon. Just to keep the record straight, she is the star of the new feature picture now playing its world premiere at the Fox, "Only Yesterday."

For you see I remember Margaret from four or five years ago, when she was in Atlanta in her own delightful film and took it that time it was playing the leading feminine role in "Strictly Dishonorable" at the Erlanger theater.

Her telephone call was to find out what we in Atlanta thought of her first picture, "Only Yesterday," for the Fox is the first theater in the world where it has shown.

"I'm so nervous about it I can't wait for the formal reports," she explained. "I am so anxious that everyone will like the picture. Particularly, of course, my part in it. I assured her that, in so far as all of us who had seen it were concerned, we were completely captivated."

Georgia Meets Florida and Tech Plays Vanderbilt Today

BREAK O' DAY!

Football Conversation Is Always the Same--But Interesting!

EN ROUTE NASHVILLE WITH GEORGIA TECH TEAM, Nov. 3.—The Pullmans rock and sway slightly. I would not woud the feelings of my railroad friends.

The curtains of the Pullmans sway slightly, offering a dim green vista.

Figures in multicolored pajamas scurry about the aisles. There is an odor of rubbing oil, of apples, which are eaten to keep the doctor away, and of suit cases.

Months after the season is done I will be able to close my eyes and catch this odor—of trains and apples and smoke and rubbing oil—a rare old blend.

In the drawing rooms there is talk. The coaches, the alumni and football reporters sit and talk. It is about nothing in particular. The defense of the Vanderbilt team is discussed. There is a mention of Colonel Dan McGugin and his smartness.

Someone pops up with a story of the time when some star got away for a long run. The cigarette smoke grows denser. Someone recalls the first year Tennessee, as coached by Neyland, came to Nashville and lost to a brilliant team headed by the fleet Gil Reese. That was the day that Reese, running for three touchdowns, said to the safety man, "Get ready, I'll be back in a minute."

Stories grow with the telling. I have come to recognize some old football stories as old, old friends. They turn up each year with new heroes and new locations.

"Well, if he uses a box defense we should be able to pass right down the middle . . . the diamond is the best one against that . . . naw, I don't like a six-man line UNLESS you have two big, rugged boys to back it up . . . and that year we were playing Ole Miss and in the third quarter this guard turns to me and he says . . . Kipke was the greatest kicker. He could hit a handkerchief . . . well, what if Vanderbilt does drive down there? It's tougher to score from the eight-yard line than from the 30 . . . The old-fashioned line buck is still the best play—double wingbacks are nuts. The end runs are no good . . ."

The Pullmans sway. Lights of little towns come up. "I wonder what town this is? I wish we could get a sandwich. Ring for the porter. The diner may still be on here."

Voices at the stations. Train crews with lights. Why do they always talk so loudly?

The night begins to lose some of its sable color. It thins out a bit.

"Getting late." A vestibule door is opened. The night air sweeps in, fresh with the odor of fields and mountains. "Let's get some sleep."

The swaying curtains, the berth and oblivion. Always the same, always new, always tiring, always fascinating—the rush of a train through the night and the aimless, meaningless flow of conversation that lasts 'til dawn.

GEORGIA TECH'S CHANCES.

Coach W. A. Alexander, dependable, enigmatic, loyal—his Jackets have a chance Saturday afternoon. He says so. But he expects Vanderbilt to be very tough. He might lose the game.

"Ask around. See how many teams approach Vanderbilt expecting an easy game. None."

The same goes for Georgia Tech. No team has ever come to Atlanta expecting victory. Alexander manages to give them all a thrill. His teams haven't been consistent winners since the 1928 team. But anyone who knows football at all knows there is not very much really first-rate football material at Tech this year. The sophomores have been slow developing and Tech's season depended on them.

I once saw a football coach, who had a tough game left on his schedule, sit and swear at Alexander in slow, calm swear words.

"You get my goat," he said. "You've lost three games and you haven't said a word; haven't offered an explanation. You've won some games you shouldn't have won and you didn't say anything about them. I've got one game left and I'm going crazy. And you sit there with it all figured out!"

I don't know about that. I think the Alexander man gets nervous. But he doesn't show it. But this I know, he can treat those two impostors, victory and defeat, with more nonchalance than any man I know.

His team may click Saturday. If it does, if the reserves or the starting substitutes come through, his team will win handsily. If not, then the Commodores may pull this one out.

JOHN DILDY'S REPLY.

Zippo Newman, the Birmingham scribe, was around just before I left, regaling with stories of the Alabama-Fordham game, which Fordham won by two lone points, a safety.

"When that fight came in the end zone after that fumble," said Zippo, "John Dildy, Alabama tackle, reached for the ball. The going had been plenty rough. Three big fellows piled into Dildy. 'If you punch YOUR mouth in this,' said one of them to Dildy, 'we'll punch it closed again.'"

"One of the boys asked Dildy what he said, and John replied, 'What can you say when you keep your mouth closed?'" Zippo Newman is around broadcasting the news that if any team in Dixie plays the boys to warn them to card an easy game for the following Saturday.

And Zippo drew a finger across his throat and went, "Skkkkkkkkk." Very expressive. One of the old school of actors, the Zippo.

AND WHAT A LIAR.

The Zippo is the father of a young lady who has reached the age of three months.

MEHRE EXPECTS CLOSE BATTLE WITH GATORS

Entire Squad Makes Trip to Jacksonville; Regulars Start.

By Jimmy Jones.

WITH GEORGIA FOOTBALL TEAM, Nov. 3.—As a Central of Georgia locomotive, towing the Georgia football team, blazed a smoky trail through the piney woods of south Georgia tonight. Coach Harry J. Mehre, the coach of destiny, sat beside a window and stared out into the whirling darkness.

The Pullman window pane was an imaginary crystal ball, into which Coach Mehre peered in a vain effort to discern the fate of his unbeaten, untied Bulldogs tomorrow in the game with the University of Florida Alligators at Jacksonville.

"Unbeaten . . . untied . . . five games . . . unbeaten . . . untied . . . the clackety-clack of the train wheels seemed to say."

SHOOT THE WORKS.

A previously beaten Florida team, shooting the works, with everything to gain and nothing to lose, better than average Florida team which led Tennessee for three quarters.

"It is a foggy night out there in the pine woods and I can't tell much about it," Coach Mehre was saying. But his audience knew that he was speaking of the football game to be played and not the landscape.

The opaque region beyond the window gave back nothing in answer to Coach Mehre's soliloquy. Only the pine trees scurrying past in the gloom and the wheels clicking off the rails.

Ever so often the engineer pulled down on the whistle and the hiss and scream startled Coach Mehre from his reverie. The newspapermen aboard seized the chance to ply him with a few questions.

"And what about the team, Harry? . . . Is it in good shape?" Harry adjusted his spectacles and chewed solemnly on a stogie.

"Physically, yes . . . mentally, I don't know," he replied. "The boys are all right with the exception of two men I probably won't use. But I don't know how their minds are."

The innocent joshing of persons who insist that Georgia is a football team and that Coach Mehre is a shepherd crying wolf has gotten upon Coach Mehre's nerves, somewhat. He has had a rough time of it since he took over the reins of the Georgia football team. The old-fashioned line buck is still the best play—double wingbacks are nuts. The end runs are no good . . ."

The Pullmans sway. Lights of little towns come up. "I wonder what town this is? I wish we could get a sandwich. Ring for the porter. The diner may still be on here."

GO F FACTS NOT THEORIES

By Alex. J. Morrison.

Alex. Morrison says:

"How far back should I take the club?" is the one question that most players ask when talking about their backings.

They are under the impression that the club should be posed in a certain position relative to each shot played. Pretty much as though the position of the club alone could make a correctly-made backswing.

It's the positions and movements of your body, arms and hands, that should receive all of your attention during the backswing.

If you have performed the right movements you will not only have the club in the proper position but you will also be ready to make a good downswing.

WALKER BOWS IN TITLE FIGHT

NEW YORK, Nov. 3.—(AP)—Marie

Rosenbloom, champion of the light heavyweights, flung back the challenge tonight of doughty little Mickey Walker, a contender for the title.

There were no knockdowns and few thrills for the biggest crowd of the indoor season here as Rosenbloom, as consistently good when his title is at stake as he is mediocre when touring the outskirts in non-title matches, slipped and cuffed his way to the decision of two judges, Charley Lynch and Jim Buckley. Referee Forbes

voted for Walker, but his choice failed to find a companion opinion either among the experts or the spectators. A faint shudder of the man who whipped Jack Britton for the welterweight crown in 1922, lost it to Pete Latzo, then came back to win the middleweight championship from Tiger Flowers in 1926, Walker fought his battle only in flashes.

Walker stung Rosenbloom with a right to the chin in the first round, but an aggressive mid-section attack in the second, cut the champion's left cheek with a right in the eighth, and a left jab in the eleventh, but the rest of the time he was but a slow-moving, scowling foil for Rosenbloom's eccentric boxing.

Referee Forbes gave Walker nine rounds and was in wide variance with the judges who gave the champion 11 of the 15 sessions and called two even.

The Associated Press score chart scored nine for Rosenbloom, four for Walker and two even.

There was little difference in their weights. Rosenbloom scaled 173 3/4 pounds, Walker 173 1/2.

The Associated Press score chart scored nine for Rosenbloom, four for Walker and two even.

There was little difference in their weights. Rosenbloom scaled 173 3/4 pounds, Walker 173 1/2.

Walker stung Rosenbloom with a right to the chin in the first round, but an aggressive mid-section attack in the second, cut the champion's left cheek with a right in the eighth, and a left jab in the eleventh, but the rest of the time he was but a slow-moving, scowling foil for Rosenbloom's eccentric boxing.

Referee Forbes gave Walker nine rounds and was in wide variance with the judges who gave the champion 11 of the 15 sessions and called two even.

RAMS TO MEET GALS TODAY IN BIG TEST

Intersectional Games Usher in November Grid Campaign.

By Alan Gould,

Associated Press Sports Editor.

NEW YORK, Nov. 3.—(AP)—Intersectional football warfare, concentrated largely on eastern gridirons, will usher in the November campaign tomorrow, along with the first wintry blast of cold weather.

In some sectors it may even be necessary to sweep off the snow before the opening kickoff. In others the forecast of rain tonight threatened to raise havoc with intricate maneuvers on muddy battlegrounds; upsetting ball-carriers and the "dope" alike.

Eastern college forces are braced for the shock of the season's biggest invasion. Of the dozen outstanding intersectional games on tomorrow's slate, seven will be played along the eastern front, with outstanding teams of the far west, middle west and south training their biggest guns on the home ramparts. In addition, two other eastern outfits, Holy Cross and Carnegie, will deploy on mid-western fields, against Detroit and Purdue, respectively.

The game brings together teams coached by two of the most conspicuous and successful exponents of the Notre Dame system, Edward Patrick (Slip) Madigan, of St. Mary's, and John H. (Sleepy) Crowley, of Fordham's undefeated Rams, who now have their eyes on a bid to the Rose Bowl game on New Year's Day. If both do not meet the "Rocky Mountain" standard, the "Rocky Mountain" fans and critics alike will be disappointed. Fordham rules a slight favorite.

Notre Dame itself is out of the national championship picture for 1933, with a record of two straight blanking and a scoreless tie thus far in four engagements. The Fighting Irish, who have won three in a row and never been beaten by Navy, their opponent at Baltimore tomorrow, but that won't keep Edgar (Rip) Miller, Notre Dame's star halfback, from being one of the nation's best players.

PEACE PLAN FOUND TEXTILE STRIKE

Workers in Augusta Area
Expected To Resume
Jobs Monday.

AUGUSTA, Ga., Nov. 3.—(AP)—A basis for settlement of strikes of cotton textile workers in three Augusta plants was announced here today by the national cotton-textile industrial relations board, which went into conference in an effort to smooth out labor troubles in the near-by Horse Creek valley section of South Carolina.

The settlement plan, under which workers would be permitted to return to their jobs Monday without discrimination, except in cases of those guilty of violence or sabotage, provides that mediation methods prescribed in the cotton textile code be put into effect in the mills.

Strikers returned to work earlier in the week in the King mill and the Riverside mill here. About 2,000 others are expected to go back to work Monday in the Enterprise and the Sibley mills.

But its machinery is now undergoing repairs and it has not been announced when it will be ready to reopen.

Mills at the Horse Creek valley at Bath, Clearwater and Langley were represented at a conference here with Bruere and Geer by Homer Lorine, an official of the Loring group of mills.

The mills in these cities are in operation, but some of their workers are out on strike, and South Carolina national guardsmen have been stationed in this area to keep the peace.

Workers in the Augusta mills affected by the new peace proposal are to consider the settlement plan at a meeting tomorrow, the time and place of which has not been determined.

THOMASVILLE, Ga., Nov. 3.—(AP)—A district organization of young democrats was formed at an enthusiastic rally here last night.

Representatives from 11 counties were guests of W. Fred Scott, of Thomasville, district committeeman, at a supper and organization meeting at the American Legion home. Guests included county chairmen appointed by Scott and representatives chosen by them to attend the meeting.

R. J. Reynolds Jr., of Atlanta, state president, said party loyalty, political education and the forming of a progressive force for the good of the state and nation were immediate objectives of the organization. Reynolds said that district was the first to organize and that he had high hopes for a successful organization in this section.

Other speakers included Fred Hand, of Pelham; Mrs. C. T. Willford, of Newton; Miss Rachel Cummings, of Donaldsonville; Jeff Pope, of Cairo; J. E. Robinson Jr., of Frankfort, and Mr. Scott, of Thomasville.

LEGALITY OF ARREST
GOES TO HIGH COURT

TALLAHASSEE, Fla., Nov. 3.—(AP)—Validity of the commitment under which Thomas J. O'Dell is held in jail at De Land, Fla., will be argued before the supreme court here November 7.

O'Dell was returned to De Land after his arrest October 4 at Savannah, Ga., and is charged with obtaining money under false pretenses in the operation of a race track "wire tapping" scheme by which Harry W. Wills, of New York, is alleged to have been mulcted of \$100,000.

DALTON HOPES FADE
FOR NEW CITY HALL

DALTON, Nov. 3.—The hope of a federal loan to build a new city hall here faded this week as Mayor J. G. McGehee was informed by the Georgia public works board that it would be necessary to issue a 4 percent bond or highway construction certificates as security for the loan.

The mayor was informed that only one federal loan had been made in this state thus far and that was for a prison on a leasing basis whereby the federal government would take over the buildings in the event the loan was not paid.

PRESIDENT OF D. A. R.
SPEAKER AT BERRY

MOUNT BERRY, Ga., Nov. 3.—Stressing the need of an aroused citizenship partaking actively in the affairs of the nation, Mrs. Russell Maguire, national president-general of the Daughters of the American Revolution, addressed 900 students in the Mount Berry chapel at Berry schools last night.

Declaring that patriotism, like religion, should be lived every day and not set aside for special occasions, Mrs. Maguire urged the boys and girls of Berry to step forward in the march of progress in which the world now is participating.

Only \$25 in Cotton On Clarke Tax Lists

ATLANTA, Ga., Nov. 3.—There was only \$25 worth of cotton in Clarke county on January 1, 1933. At least, that was the total value of all the cotton registered for tax collections at the county tax collectors' offices.

GREENSBORO SESSION OF A. M. E. CONTINUES

GREENSBORO, Ga., Nov. 3.—The North Georgia annual conference of the A. M. E. church, meeting in daily sessions here at the Ebenezer A. M. E. church, with Bishop Fountain presiding, was featured at the morning session by the reading of the minutes of the last annual conference held by Rev. H. I. Bearden, Jr., of Moore, W. R. R. and Professor C. L. Ashley.

This institute work consists of fundamentals, methodical and orthodox. The previous day journal, read by the secretary, J. R. Wilcher, was adopted.

Bishop Fountain spoke of Methodism and its essentials to the growth of the church, and in early periods of the church the minister's garb indicated his faith. The committee on administration, on disciplinary questions and ministers' character passed in the conference here today.

Transferred to north Georgia, J. Lee Roy Moore, from Augusta conference, N. J. Humphrey, Tennessee conference, and North Georgia conference, Memoirs, H. Hardeman, E. W. O'Neill, committee, E. H. Coll, H. H. Butler, B. L. Thornton, J. H. Matthews, of Dalton, was transferred to the South Georgia conference, stationed at St. Timothy, Valdosta.

The conference model Sunday school will be conducted by Dr. C. A. Wingfield, state superintendent, here Sunday.

Memorial services will be held Sunday. The educational anniversary was observed here Friday night with Bishop Fountain presiding.

Speakers were Charles L. Hill, Dean Turner, Theological Seminary; Dr. E. C. Mitchell, S. F. Harris, W. H. Madley, M. D. Thornton, J. H. Matthews, of Dalton, was transferred to the South Georgia conference, stationed at St. Timothy, Valdosta.

Cambridge was represented by Alastair Sharp and Michael Barkway. Mr. Sharp is a Scotsman, a student of the Free College, and a member of Hawks Club, an exclusive club of distinguished athletes. His profession is law, his passion politics, his hobbies music and games of every kind.

Mr. Barkway is a student of Queen's College, and was president of the Union Society of Cambridge, and chairman of the university branch of the League of Nations Union. He is also president of the British Universities' League of Nations Society.

Convicted 47 Years After Crime, Joe Smiley Escapes From Prison

GLENNVILLE, Ga., Nov. 3.—(AP)—Joe Smiley, convicted in the April term of court for the murder of a schoolboy 47 years ago, has escaped from the state prison farm near Glennville, it was learned today. He escaped last Saturday, and a reward has been offered for his capture. Alfred Reddish was killed during a schoolboy quarrel. Smiley left this section shortly afterward and did not return until a few years ago. A chance remark led to his arrest, and his trial and conviction.

During the trial Smiley attempted to establish that he is not Joe Smiley, but Harlan Chapman, of Kentucky. Affidavits substantiating his claim were offered. He was convicted, however, and sentenced to four years. He had served about four months of the sentence.

He was released from prison last Saturday, and a reward has been offered for his capture. Alfred Reddish was killed during a schoolboy quarrel. Smiley left this section shortly afterward and did not return until a few years ago. A chance remark led to his arrest, and his trial and conviction.

LEESBURG, Ga., Nov. 3.—(AP)—Wade McElmurray, 38-year-old farmer, was slain with an ax at his home near Albany last night and four men were reported under arrest, a fifth sought, by Sheriff W. E. Tapley, of Lee county. McElmurray's brother, Evans, suffered at head injury.

The sheriff said he had not talked with the four men in jail and declined to comment on the case except to say they were charged with murder.

Wade McElmurray died in a hospital in Albany soon after he was taken there but at the hospital the condition of Evans McElmurray was reported as not serious. Mrs. Wade McElmurray was slightly injured.

The attorney reports here said, followed an argument over complaints the five men backed their automobile over a flower bed at McElmurray's home.

\$5,000 FOR REPAIRS
ON COOSA RIVER DAM

WASHINGTON, Nov. 3.—Secretary of War Duggan today approved the allotment of \$5,000 for the operation and care of locks and dams on the Coosa river in Georgia and Alabama.

The district engineer at Montgomery, and the division engineer, Gulf of Mexico division, reported that due to damage by high water, repairs were necessary to Federal dam No. 5 on the Coosa river near Seddon, Ala.

Dam No. 5 is one of a series of federal locks and dams constructed on Coosa river to promote the interests of navigation.

"It is essential," reported the engineers, "that these repairs be made to preserve the integrity of the dam and to maintain the established pool level formed by the dam."

VERDICT OF SUICIDE
FOR MAN FOUND DEAD

NASHVILLE, Ga., Nov. 3.—A white man thought to be W. R. Byrd, of Pavo, Ga., as shown by an ad found in his pocket book, was found dead in the New River swamp near Enigma and Brookfield, today about noon, according to O. L. Griner, Berkeley.

JURY'S DEADLOCK OVER FATE OF WOMAN

Twelve Men Locked Up for
Night After Deliberating
Entire Day.

DUBLIN, Ga., Nov. 3.—(AP)—At 9 o'clock tonight, the jury considering the fate of Mrs. Sam Wynn, charged with murdering Mrs. J. E. Burns at Dexter October 1, was sent to a hotel for the night. The matter has been in the jury's hands since 9 o'clock this morning.

In the closing hours of the case, Mrs. Wynn made a statement to the jury, said she had been told that Mrs. Burns was "out to get her," and that she believed her life in danger when she shot and killed Mrs. Burns.

The defense offered in evidence an indictment which had been drawn by the Laurens county grand jury one month prior to the slaying charging Mrs. Burns with assault with intent to murder by shooting at Mrs. Wynn. The defendant said Mrs. Burns fired five shots at her, but missed.

After that, Mrs. Wynn said, she lived in mortal fear of Mrs. Burns and on many occasions stayed at home to avoid a meeting with her.

On the day of the killing, she said, Mrs. Burns approached her in the postoffice, with a hand in her bosom. Mrs. Wynn said she believed her life in danger, and fired.

The state offered testimony that Mrs. Burns was not armed.

Balloon Race Will Feature Junior Horse Show Today

A colorful balloon race, with 20 entrants, will climax the second annual junior horse show Saturday afternoon at the Atlanta Riding school. In this closing event a wild balloon will be tied to the arm of each contestant, the winner to be determined by the one who keeps the balloon aloft the longest time without breaking it. Mrs. Frank Quintin and Miss Pam Johnston are in charge of this class, one of the most interesting of the 15 that comprise the program of the afternoon's entertainment.

As an interesting added attraction, Tom Mix, the famous cowboy of the movies, will visit the grounds during the afternoon. He will be brought out by A. L. Belle Isle, president of the Atlanta and White Taxicab Co., and will appear through the courtesy of R. B. Wilby, owner and director of the Valente theaters, where he is being starred for four days. Mr. Mix will present the trophy to the winner in one of the classes.

Winners in the classes will be awarded silver goblets, with those placed second, third and fourth being given ribbons.

Two of the honor graduates of the Tallulah Falls Industrial school, for benefit of which the horse show is being staged, will be present and will represent the Young Matrons' Circle, the sponsors. These two young men are co-operative students at Georgia Tech.

Dr. and Mrs. A. S. Wheeler are directing the show. The two judges, Mrs. A. J. Valentine and Mrs. E. W. Edmond, are Col. Fitzhugh Lee and Major Arch Coley, of Fort McPherson. Lieutenant Sanford will announce the winners. On hand and thirty-eight entrants will participate in the 15 classes, which include ponies, horses, and events for novice riders, three- and five-year-old horses, horsemanship, and bridge-trail hacks.

Members of the Young Matrons' Circle, of Tallulah Falls school, will have charge of selling tickets at the school.

A. national convention held in Philadelphia next week, the business girls' committee will be studying it carefully. Miss Oria Skinner and Mrs. Philip Sanders will present facts describing "Recent Trends in the Business World," emphasizing those affecting young women.

Mothers, Mix This At Home for a Bad Cough

Needs No Cooking! Big Saving!

You'll be pleasantly surprised when you make up this simple home mixture and try it for a distressing cough. It's no trouble to mix, and costs but a trifle, yet it can be depended upon to give quick and lasting relief.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water over a low fire until the sugar is dissolved. Add 1/2 cup of lemon juice. No cooking needed. Get 2 1/2 ounces of Pinex from any drugstore, put it into a pint bottle, and fill up with your sugar syrup. The pint thus made gives you four times as much cough remedy for your money, yet it is far more effective than ready-made medicine. Keeps perfectly and tastes fine.

This simple remedy has a remarkable three-fold action. It soothes and breaks the inflamed membrane, loosens the phlegm, and clears the air passages. Thus it makes breathing easy, and lets you get restful sleep.

Pinex is a concentrated Norway Pine, in concentrated form, famous as a healing agent for throat membrane. It is guaranteed to give prompt relief or money refunded.

Culbertson on Contract Extra Chances.

BY ELY CULBERTSON
World's Champion Player and Greatest Card Analyst.

It is always desirable to reserve as many extra chances in the play of the hand as possible, when consistent with the sound method of play.

In the hand given below, S. M. Stayman, of New York city, had the foresight to retain two separate and independent methods of fulfilling his contract, so that if one failed he would always have recourse to the other. This was fortunate for him to be possessed of so much foresight was amply demonstrated in the course of the play.

North and South vulnerable.

South West North East

North's three no-trump bid was perhaps a trifle optimistic, but North and South played a system in which North's one-heart response to his partner's one-spade bid might have shown no honor strength whatever, so that South's two-no-trump bid was in the nature of an Original two no-trump bid.

North to believe his suit might be valuable.

In the play West opened the four of spades, which East won with the Ace. East's spade-three lead trapped South's Queen under the King-Knave, and the remaining spades were cashed, the last being taken by East with the nine. On this play South was forced to discard.

The diamond were all sure winners, and the small club represented a trick if the adverse clubs were divided 3-3. South's obvious course, therefore, was to cash his four aces. But he could also see that in case one of his adversaries held a fourth-round club stopper, he would have to look elsewhere for the development of the ninth trick he needed for his contract, which trick could be made only by a successful finesse.

Mr. Stayman points out the fact that even at the end he had a choice between finessing the heart or playing for a squeeze. He chose the latter, and he held the King of hearts as well as the club stopper, could not have preserved both of them in the three aces and other tricks he had.

Mr. Stayman therefore threw the Queen of hearts on the fourth round of spades. The fact that this served him in good stead later is shown by the position of the King of hearts and the guarded Knave of clubs.

Among these will be a lovely hand-made quilt, once belonging to the General Floyd family, showing a black or unit autographed by some member of the Floyd or Blackshear families, a hand-made brass bugle used in the war of 1812, and a china, day-replicas, the Hugh McCall Bible, etc., all properly marked.

Misses Elizabeth Hulse and Margaret Rogers, Mary Virginia McConnell, Lillian Roberts and Janette Cox will serve punch. Assisting in caring for the guests will be Misses Linda Cox, Aline Timmons, Estelle Carpenter, Rena Travis, of Savannah; Virginia Carpenter, Helen Bashinski, of Dublin; Clara McConnell and Charlotte Courie, of Dublin. Miss Elizabeth Shewmake will register the guests, and Misses Iverson Dewa, of Dublin; Wood and Kate Hall, and Elliott Evans will act as guides.

The U. S. Daughters of 1812, though one of the younger of the patriotic organizations, is one of the oldest and most active. During the past year new chapters were formed in Dublin and Savannah, and the membership of the state was so greatly increased that Georgia was awarded the national membership trophy, the beautiful Carfax flag. Mrs. McConnell, as president, has been most successful in securing a press chairman of Georgia. Miss Hill's publicity has included not only comprehensive reports of meetings, awards, marking of graves, and locating real daughters, but the publication in the Atlanta Journal every Sunday a series of official interviews for membership. These reports, compiled from manuscript records by Miss Blair in the receiving line will be Mrs. Lucius McConnell, state president; Miss Annie Laurie Hill, first vice president; Mrs. John S. Adams, of Dublin, second vice president; Mrs. Charles Rice, ex-vice president national; Mrs. Edgar R. Gunn, recording secretary; Mrs. Moreland Speer, corresponding secretary; Mrs. William C. Carpenter, treasurer; Mrs. C. Decker Tabor, registrar; Mrs. James A. Wood, historian; Mrs. A. McD. Wilson Jr., curator; Mrs. Taylor L. Rogers, editor; Mrs. Joseph Asbury Sewell, chaplain; Mrs. Frances E. Brownell, parliamentary, and Mrs. John E. Lane, of Jackson, historian, General John Floyd chapter.

A handsome drum-top display table, of materials of official interest, will be on hand. A portrait miniature of General John Floyd was placed in the hands of the members. A General John Floyd chapter, and miniature of other heroes of the 1812 War period will be added from time to time. A photo of the display table, placed in the hall during the past year or two under

BARGAIN IN LOVE

BY JANE DIXON

WHAT HAS GONE BEFORE:

Henry Hume, Sue Santry's employer, takes her along to help Mathilda Featherstone, his secretary, when he goes to Paris on business, and Sue and Matty are so busy they are nothing of the brilliant French capital. The first evening of the return voyage to New York aboard the Tophet, Jeffrey Randall saves Sue from pitching overboard in a sudden storm. Confronting Sue in the presence of Mrs. Hume, she accuses her of being her husband's mistress in Paris. The next evening, with no demonstration of love, Jeff asks Sue to marry him, explaining that in seven days he will be 37 years old and if he is not married then he loses the Randall fortune to his cousin, Beatrice and Cyril, under the will of his Uncle Griswold (Grady). Sue agrees. She tells Jeff that her widowed mother married Herman Featherstone and that she has been sending every spare cent home so her stepfather will not take Tommy, her younger brother out of school and put him to work. Jeff, who is Mr. Gifford, executor of the Randall estate, that he is bringing home a bride. Matty agrees to remain with Sue and Jeff and "let it be." Jeff's mother, who is a widow, and her husband, who is a widower, are both dead. Jeff had planned to hurry to the marriage license bureau. NOW GO ON WITH THE STORY:

INSTALLMENT XXII.

"Am I intruding?" Beatrice Randall negotiated the distance between the door and Sue with all the agility of the spider. "Good morning, Sue. Persons told me Jeff had gone out. I've caught you just in time. What a love of a hat. Paris is like that." Sue leaned back to survey Sue. The hat was from Thirty-fourth Street, New York, two seasons ago.

"Jeff saw it in a shop window in the Rue St. Honoré," Sue said glibly. "He insisted I have it. Not a bad choice."

The spider retreated, inwardly. But only for the briefest second.

"Jeff's quite a connoisseur." In-sinuation could be deadly. "I wanted to ask you to be in for tea. It's for some friends, of Jeff who are coming to meet you."

"I don't know," Sue, sparing for time.

"Mr. and Mrs. Randall are engaged for tea," Mathilda said, consulting a notebook she drew from the pocket of her coat-suit.

"But you can't, possibly, Sue," Bea was against. "Old family friends."

"Please take the matter up with Mr. Randall," Mathilda's voice was firm. "Come, Mrs. Randall, we are late. Unpardonably late." Mathilda moved toward the hall door.

BY JOHN L. COOLEY.

NEW YORK, Nov. 3.—(AP)—Stocks

bestirred themselves into a rally today, getting their leadership from rails and other issues which usually remain in the background when inflationary sentiment is ruling the market.

Wall Street again heard numerous rumors as to monetary matters. One of them had it that Washington might soon say something about stabilization, placing the possible level of gold value on the other hand, Wall Street wondered whether the new foreign gold purchasing program looked like the beginning of an effort to stabilize.

Whatever the reason, final dealings on the stock exchange witnessed a broad, brisk recovery, bringing many net gains of 1 to 3 points and some of larger proportions. Sales totaled 1,514,020 shares, the week's best volume.

Steel, led by United States Steel, which rose 3 1/2, were strong. Automobile issues traded actively at rising prices. General Motors advancing 1 1/2. Chrysler was up 2.

American Telephone overcame recent sluggishness and rose 4. Allied Chemical jumped 5 1/2. Westinghouse, Case, American Tobacco "B", American Locomotive, Union Pacific, New York Central, Du Pont and Consolidated Gas improved 2 to around 3. Many rails were up a point or more.

Mining shares, favorites of the inflation camp, were soggy most of the day, though they canceled or reduced their losses. Alcohols and oils rallied.

Dollar movements were uneven; at one time our unit was above some of the foreign currencies, though it had intervals of decline. The R. P. C.'s gold price rose 21 cents to \$35.57 an ounce.

High-grade bonds weakened, especially in the United States government category. Considerable liquidation for institutional account, prompted by declines in the dollar, rather reported, and it is assumed that rather extensive switching out of gilt-edgers has occurred.

Freight traffic decreased last week in comparison with the previous week, the setback being a bit larger than seasonal. However, improvement over a year ago improved 2 per cent as against a rise of 1.2 the week before, and the comparison with 1932 was the best in nearly a month.

Brokers' Views

FENNER, BEANE & UNDERLIDER—The prospect of a further extension of the advance appears favorable.

BEER & CO.—Fiduciary action strengthens the opinion that the market is headed toward higher levels.

LIVINGSTON & CO.—We remain conservatively optimistic on stocks making allowance for the present downward tendency of cotton activity.

FENNER, BEANE & UNDERLIDER—We still believe that the market will be helpful to the market.

HUBBARD BROTHERS & CO. TO DOBBS & CO.—The general outlook is improving, and will probably be so until after the government report on November 5.

LIVINGSTON & CO.—We would not be surprised to see a government estimate below last week's expectations and do not believe there is any undue risk in being long over the report.

BEER & CO.—The trade is becoming more in the money, and the government report on November 5 is expected to be helpful to the market.

FENNER, BEANE & UNDERLIDER—We believe a long position in the wheat market would be profitable.

BEER & CO.—Until further information is received as to what is proposed in the core conference, the trade as a whole is withholding comment.

NEW YORK, Nov. 3.—(AP)—The curb market resumed its quiet uptrend today, the best progress being recorded in the last hour when a moderate buying flurry raised final quotations fractions to around a point or so.

Metal shares were reactionary most of the day, but cancelled or reduced unchanged after some 20 points while Lake Shore Mines showed a similar decline.

Alcohols continued to lead the improvement with advances of major fractions to more than a point by Hiram Walker, Distillers Corporation, Seagrams and Canadian Industrial Alcohol.

Utilities and oils moved slightly higher, modest gains ruling in Electric Bond & Share, Humble and Gulf Oil. Aluminum Company of America and General Tire & Rubber got up 2 points each in quiet dealings.

Transfers approximated 202,000 shares compared with 188,000 on Thursday.
